

Someone Who Tries to Protect the Environment

Describe a person you know who tries to protect the environment.

You should say:

who this person is

how you know them

what they do to try to protect the environment

and explain why you think they do this.

Part 3

Protecting the Environment

- In addition to your example from Part 2, what are some other things that can be done to protect the environment?
- Some people say the use of plastic bags is an environmental problem. Can you explain why they say that?
- Can you explain how some waste (= garbage) is recycled?
- In your opinion, who do you think is (or, should be) most responsible for protecting the environment, governments, companies or individuals?
- How much do you think companies should be responsible for the pollution that they produce?
- Which industries would you say are the biggest environmental polluters?
- What can (or does) the government do to protect the environment?

Education about Protecting the Environment

- How can people (= individuals) be encouraged to protect the environment?
- Do you think it's important for people to be educated about (= to be made aware of) environmental problems?
- Do you think this topic should be included in school syllabuses (= should be taught in schools)?
