

## **An Outdoor Activity**

### **Version A**

#### **Describe an outdoor sport that you would like to try**

You should say:

what it is

where you would try it

how easy or difficult you think it would (or, will) be

and explain why you would like to try this **sport**.

### **Version B**

#### **Describe an outdoor activity that you would like to try**

You should say:

what it is

where you would try it

how easy or difficult you think it would (or, will) be

and explain why you would like to try this **activity**.

### **Notes**

- More than half the people who got this topic are reporting Version A but several peoples are reporting Version B. I think both are possible

but Version B is probably the more likely true wording. That version allows you to choose a sport or some other outdoor activity.

"Outdoor sport" is one of the Part 3 sub-topics. I suggest you prepare for both Version A & B.

### **Part 3**

#### **Outdoor Sports**

- Do people in your country have many opportunities to engage in (do) outdoor sports?
- What kinds of outdoor sports do people in your country do?
- (Similar to above) What are some examples of the outdoor sports that people in your country do?
- What are the major differences (and similarities) between indoor sports and outdoor sports?
- (Similar to above) What are the main advantages and disadvantages of outdoor sports, in comparison with indoor sports?
- Which is more exciting, in your opinion?
- Do you think outdoor sports are closer to nature?
- Do you think schools should cancel outdoor sports on days when the weather is extreme (e.g., temperatures above 35 degree)?

#### **Sport in General**

For these questions, it is possible that the questions here are asked in such a way that "liking" a sport can either mean, "like to play it" or, "like to watch others play it".

- What sports do young people in your country like?
- Do old people also like those sports?

- What would you say are the advantages & disadvantages of team sports as opposed to individual sports?
